

# PERSONAL PHOTOGRAPHY AND FILMING

**BANNOCKBURNHOUSE**

*For the community*

The Trustees and Volunteers of Bannockburn House welcome you and hope that you enjoy your visit.

**You are welcome to shoot still or video photography for personal use (not sold or shared for profit or promotion) during your visit.**

We ask that monopods and particularly, tripods do not have spikes on them which could be potentially damaging to the building. Also, any shots taken using a selfie stick we ask that you be aware of our volunteers and other visitors, and their right to privacy. Please wait until tour guides have finished their presentation before shooting. Flash photography is permitted provided it does not interfere with others' enjoyment of the property.

From time to time we may display or have on loan items that may be damaged by repeated exposure to light. At such times, we will make it clear by notices that flash photography is not permitted.

If you have any questions about this policy, please ask any of our volunteers.

*Note: Commercial and professional photography (including tripod use) is not allowed in Bannockburn House or grounds without advance negotiation and written permission. Please email [willie@bannockburnhouse.scot](mailto:willie@bannockburnhouse.scot)*
